The Sea Pines Resort®

DREDGING UNDERWAY

As part of our ongoing commitment to provide exceptionally maintained facilities and amenities, we will be professionally dredging the Harbour Town Yacht Basin, South Beach Marina and other channels in Sea Pines in the coming months. Due to naturally occurring sediment buildup, the environmentally friendly maintenance project is necessary to keep our vital waterways navigable and provides long-term benefits for the community.

The dredge will operate from 7am-6pm, Monday through Saturday until completed. There will be sound generated by the dredge equipment and booster pumps and we realize this may create some disturbance; we will do our utmost to ensure that all our valued guests continue to enjoy a premier experience.

Should you require assistance due to any inconvenience resulting from dredging activities, please do not hesitate to contact The Sea Pines Resort's front desk staff at (843) 842-1872.
